### Demarest advises Tepeyac on the acquisition of Espaço Agrícola

**Demarest Advogados advised Fertilizantes Tepeyac (through its Brazilian subsidiary, Tepeyac Brasil Participações) on the acquisition of 70% of the shareholding of Espaço Agrícola from Carlos Gomes de Oliveira, Volneimar Lacerda de Oliveira, Marlos Stival Leal and Philemon Martins Costa Neto.**

Through this transaction, Tepeyac will also indirectly acquire Espaço Agrícola Piracanjuba and Espaço Agrícola Jataí.

The main activities of the target companies are the wholesale trade of pesticides, fertilizers, seeds, legumes and soil correctives, among others. In the future, provided certain requirements are met, Tepeyac will have a call option and the sellers will have a put option to sell the remaining 30% of the equity stakes in the target companies.

**Demarest relied on lead partner Lucas Tavares (pictured) and associates Luiza Peralta and Pedro Delavald.**

Candido Martins Advogados advised the sellers.
